The OMX 200 model series are digital DIN rail mounted transmitters housed in an enclosure only 12.5 mm wide.

The OMX 211PM type is a simple single-channel isolator with a convenient setting of the input and output ranges either using a DIP switch on the side of the housing or the free OM Link SW from a PC.

This device is based on a 32-bit processor and 24-bit $\Delta\Sigma$ ADC, which guarantees high accuracy and excellent stability.

PROGRAMMABLE ISOLATED TRANSMITTERS

OPERATION

The device can be configured either by DIP switch located on the side of the housing or by PC using the OM Link SW. The same SW can be used to edit and archive all device settings, as well as to perform firmware updates and customer calibration.

Tech-in process can be performed for the measuring range currently selected using the front panel buttons.

All settings are stored in the EEPROM memory (preserved even after power-off)

STANDARD FUNCTIONS*

PROGRAMMABLE INPUT

Measuring range: adjustable in menu

Standard setting: any input values can be assigned to Min and Max values of the analog output

Teach-in: any input values can be assigned to Min and Max values of the actual (unknown) input signal

Manual setting: the known Min and Max values of the input signal can be set manually and any analog output values can be assigned to each of them at the same time

ANALOG OUTPUT

Type: isolated, configurable with resolution of 10 000 parts, rate < 3.5 ms

Range: 0...10 V, 0...20 mA, 4...20 mA

FUNCTIONS

Linearization: non-linear signal is converted by a 50-point linear interpolation

Tare: designed to reset display upon non-zero input signal

Fixed tare: fixed preset tare

Simulation: test mode in which range, value and duration of the step can be set

Math functions: polynomial, inverse polynomial, logarithm, exponential, power, root

DIGITAL FILTERS

Floating / Exponential / Arithmetic average: from 2 to 100 measurements

Rounding: setting a „shorter“ number for further signal processing

* this setting is only possible via the OM Link SW
